Dear Ms. Henney,

I am writing to express my interest in all genetically engineered food be labeled. I would also like mandatory pre-market safety tests be done on all GE foods. I have great concerns over the long term affects of consuming the food until further studies are done. I try to limit my consumption of unlabeled fruits and vegetables, now driving an extra 45 minutes to get to the nearest health food store to buy organically produced food. I would appreciate your consideration to this matter. I would be interested in knowing what the future plans are with GE foods. Thank you for your time.

Sincerely,

Carol T. Bradford
